FDM kontrol af rustbeskyttelse

For den almindelige bilist er det uhyre vanskeligt selv at afgøre, om en rustbeskyttelse er udført korrekt. Det er i hulrum, vanger og døre m.v., det er vigtigst at sikre sig, at behandlingen er i orden. SUVO Anti-Rust er tilsluttet en kontrolordning under FDM, hvor der regelmæssigt laves stikprøvekontrol på behandlede biler.
